TRANSPARENT FENCE STAIN & SEAL

- Utilizes ultra-fine trans-oxide pigments to highlight the wood's grain and other positive characteristics and to increase resistance to UV rays
- Goes on easy in just one coat with no runs, drips, or back-brushing
- Often used on new cedar or redwood fences that have a lot of natural beauty to amplify, as well as for pre-stain facilities that choose to stain outdoor building materials before installation
- Carries a two-year warranty and often lasts up to four years, depending on the application rate
- Coverage on unsealed wood is 100 to 150 square feet per gallon

SEMI-TRANSPARENT FENCE STAIN & SEAL

- Our best-selling product, earning it "The Contractor's Choice" stamp of approval
- Formulated to act as a protectant against UV rays and provide better coverage overall in one easy coat with no runs or drips
- Excels on aged structures that have to be cleaned before application, but also performs well on new wood surfaces
- Backed by a three-year warranty and often lasts up to six years, depending on the application rate
- Coverage on unsealed wood is 125 to 175 square feet per gallon

200 SERIES TRANSPARENT STAIN & SEAL 200 SERIES SEMI-TRANSPARENT STAIN & SEAL

- Uses the latest proven technology available to protect wood against the elements
- Unique blend of modified oils and resins is formulated to repel water and resist the impact of UV light, and it contains anti-mildew and anti-fungal additives that prevent graying during the life of the stain
- Cures faster than other stains, making it the recommended product for decks or any surface that will be walked on
- Often used by contractors and homeowners looking for one product to use in multiple outdoor applications
- Carries a two-year warranty and often lasts up to four years, depending on the application rate
- Coverage on unsealed wood is 150 to 250 square feet per gallon

WOOD DEFENDER™ EZ Kleen™ DEGREASER

EZ KLEEN DEGREASER

- Concentrated degreaser and cleaner specifically formulated to remove stain overspray from an array of nonporous surfaces, including windows, gutters, downspouts, and air conditioning units
- When used immediately after stain contacts a porous surface such as concrete, stone, or brick, it's proven effective in removing overspray from such porous substrates
